A Message from Pastor Mark...

There are doubtless many different languages in the world, and none is without meaning, but if I do not know the meaning of the language, I will be a foreigner to the speaker and the speaker a foreigner to me.

1st Corinthians 14: 10-11

Things are changing dramatically and quickly in the day in which we live. Particularly in the area of technology. Things are advancing so quickly that many people have simply refused to try and keep up. Actually, I suspect we all do that in one way or another. Even if we are well versed in one area of technology, we are lacking in another.

In some ways, the problem is language. These days, not only are our computers complicated, but our telephone systems, our sound system, and just about everything else must be described in the language of technology. Just this past week I was talking with someone about the church phone system, what it can do and what it cannot do, and they described it to me in great detail. I have no doubt that they were describing it to me clearly and accurately, however I didn't understand the language. I was listening as they were saying, but I was only understanding part of what they were trying to tell me. Not only that, I have little doubt that what I think I finally understood was distorted rather than an accurate reflection of what they told me.

I thought about how the same thing is true when we try to communicate the good news of Jesus to those in the world today. Many are of a different generation or culture than the biblical one in which I was raised. Things that make sense to me, are very hard for them to understand. Part of the reason is that they don't understand theological or sometimes biblical language. They don't use it, they very seldom hear it and when they do, what they understand it to mean can be distorted from what I think I am saying.

In 1 Corinthians Paul tells us,

If even lifeless instruments, such as the flute or the harp, do not give distinct notes, how will anyone know what is played? And if the bugle gives an indistinct sound, who will get ready for battle? So with yourselves, if with your tongue you utter speech that is not intelligible, how will anyone know what is said? For you will be speaking into the air. There are doubtless many different languages in the world, and none is without meaning, but if I do not know the meaning of the language, I will be a foreigner to the speaker and the speaker a foreigner to me.

1 Corinthians 14: 7-11

The very reason that Jesus was born as a man and lived among us was partly to help us understand who God is, what His will for us is and how we might be saved. Without Jesus demonstrating that for us and explaining that to us, we cannot understand the things of God. Even those who were experts in the Old Testament Scriptures misunderstood what the Bible was. As a result, when Jesus came they accused Him of blasphemy.

The mission that we have been given as Christians is to share the Good News of Jesus' love with the world. But I am convinced that in order to do so we must be able to simplify the truth of the Bible into language that people are familiar with and understand more clearly. That's what Paul is trying to say in the passage above, and if you read it in context, that becomes even more clear.

Will you join us in asking God to give us an increasing passion for those who do not yet know Him? And will you join us as we allow God to help us know how we might share the truth about God and His Son and their plan of salvation in a way that people can understand? Let's not assume that because it makes sense to us, that it makes sense to them; and if they don't get it, it's because they have not tried. My friend could have thought that way about me and techno speech. But it's not so much that I haven't tried. Rather, it's difficult for me to really understand the language he is using. I really want to know more about technology, but I find it very hard to learn and understand. May God help us to be compassionate with those who give up on trying to understand what Christians

The Movie - “*Monumental*”

Starring Kirk Cameron

“Monumental” is the story of America’s beginnings. Long regarded as “the land of opportunity,” there’s no question the tiny band of religious outcasts who founded this country hit upon a formula for success that went way beyond what they could have imagined. How else can you explain the fact that they established a nation that has become the best example of civil, economic and religious liberty the world has ever known? What formula did they discover? What motivated them to come here in the first place? More importantly, how can we apply these same foundational truths today?

Be inspired by this true story as it follows Kirk Cameron across Europe and the U.S. as he seeks to discover the people, places, and principles that made America the freest, most prosperous and generous nation the world has ever known.

Thank you to those that furnished meals and sent cards to me while I was sick recently. To those that called and checked on me. I have been so blessed over the last almost 12 years as Ridgeview’s church secretary. Thank you to Becky (my assistant) for filling in for me a couple of days. Especially thank you for the prayers.

God’s love to you all, Kathy Starkey
